

SIT (Smart IT Token) is part of the growing ecosystem of SmartIT Ltd.

IMPORTANT NOTE / **DISCLAIMER**

General Information:

The token shown is not an investment product, but a token within a technological ecosystem. Acquiring a token does not constitute an investment and is not associated with any promises of return, profit, or value. These are solely personal opinions and not official statements from Smart IT Limited.

The information is generally provided to interested parties by independent advertising partners (referral partners). This is not investment, financial, legal, or tax advice.

Smart IT assumes no liability whatsoever for decisions made based on this content. By viewing this information, the viewer or interested party expressly acknowledges these disclaimers.

Binding information is derived exclusively from:

- the Whitepaper

- published documents
- and communications from Smart IT

SIT ? What else !

- ❶ Smart IT Ltd. is a company involved in various future-oriented technology and infrastructure projects (RWA) and is developing a growing digital ecosystem.
- ❷ Through SIT, the Smart IT Token, the company offers access to these forward-looking technologies in high-growth areas such as blockchain, tokenization, and Web3.
- ❸ SIT is a blockchain-based digital token on the Arbitrum blockchain (ERC-20 standard). SIT adheres to the regulatory developments of the European MiCAR Regulation.
- ❹ Distribution of the total 750,000,000 SIT tokens (current project plan):
400,000,000 SIT tokens for the two staking programs
350,000,000 SIT tokens for reward payments within the programs
- ❺ Should a portion of the SIT tokens not be needed during project development, they can be permanently removed from circulation through a token-burning mechanism.

SIT ? What else !

- ❶ SIT is a blockchain-based digital token within the Smart IT ecosystem and connects participants in the Smart IT community. Many participants are particularly interested in blockchain ecosystems because they enable the development of new digital technologies, communities, and platforms.
- ❷ By acquiring SIT tokens, participants can become part of this growing ecosystem and take part in programs within the platform. Digital tokens are traded on open markets, and their price is determined solely by supply and demand. As with many digital assets, the market value of a token can both increase and decrease over time.
- ❸ Revenue from the sale of SIT tokens, as well as funds from the business operations of Smart IT Ltd., can be used, among other things, to ...
 - ... finance new projects and developments
 - ... expand and further develop the Smart IT platform
 - ... marketing, public relations, and communication activities
 - ... and potentially repurchase SIT tokens via digital assets such as USDC.

SIT ? What else !

Market Development of Digital Assets

In connection with long-term project development, possible market development scenarios are occasionally discussed within the community.

Examples include:

0.30 € as a possible scenario by the end of 2026

1.00 € as a possible scenario by the end of 2030

-  These values do not represent guaranteed price targets or forecasts. Supply and demand determine the price (the **presale price** was **0.20 €**). The actual market price of a token can rise, fall, or even lose all its value.

SIT ? What else !

SIT - Staking

- ☛ With staking, SIT tokens are deposited into the system via smart contracts for a term of 2 or 5 years. As part of the program, additional SIT tokens can be credited as rewards (9% or 18% per year in tokens). These rewards are continuously generated by the smart contract. Tokens can be exchanged for other digital assets, such as USDC (US Dollar Coin), provided sufficient liquidity is available on trading platforms.
- ☛ SIT tokens can be purchased (in the staking program) starting from a minimum amount of 20 €. Purchase is currently possible using EUR, USDC, USDT, and SIT tokens.
- ☛ As of February 2026, over 71,000,000 SIT tokens have been staked. Currently, over 940,000 SIT tokens are distributed monthly as rewards within the programs. Rewards are distributed exclusively in the form of additional SIT tokens.

SIT ? What else !

Example community scenario: 50,000 Token (10,000€)

5 years staking		token price simulation					
		<u>A</u>		<u>B</u>			
	18% rewards	price	change	price	change	price	change
year 1	9,000 token	0.20 €	1,800 €	0.17 €	1,567 €	0.28 €	2,484 €
year 2	9,000 token	0.20 €	1,800 €	0.15 €	1,364 €	0.38 €	3,427 €
year 3	9,000 token	0.20 €	1,800 €	0.13 €	1,188 €	0.53 €	4,728 €
year 4	9,000 token	0.20 €	1,800 €	0.11 €	1,034 €	0.72 €	6,523 €
year 5	9,000 token	0.20 €	1,800 €	0.10 €	900 €	1.00 €	9,000 €
45,000 token		9,000 €		6,053 €		26,161 €	
Rewards:	45,000 token	9,000 €		4,500 €		45,000 €	
Invest:	50,000 token	10,000 €		5,000 €		50,000 €	
95,000 token		19,000 €		9,500 €		95,000 €	

⚠ These values do not represent guaranteed price targets or forecasts. Supply and demand determine the price (the **presale price** was **0.20 €**). The actual market price of a token can rise, fall, or even lose all its value.
